

CITROËN C3 PICASSO

PICASSO

THE CITROËN RANGE

Here at Citroën we have come a long way since we created the world's first all-steel bodied car. Today we are recognised for our innovative technology and original designs. Our world-leading, fuel-efficient engines respect the environment and our outstanding safety features guarantee one of the safest driving environments available. We are fully committed to delivering outstanding customer service to back up the fantastic Citroën Model Range.

We're proud to be part of such an iconic brand and we look forward to helping you choose a car that means you too can enjoy the driving experience offered by Citroën's Créative Technologie.

Stéphane Le Guevel
Director General
Citroën UK and Ireland

1924

Citroën creates the B10 and the world's first all-steel bodied car is born.

1949

Twenty five years later, the iconic 2CV is launched and stays in production for over 5 decades!

A HISTORY...

1989

The prestigious, XM makes its debut, showcasing Citroën's advanced Hydractive computer controlled selflevelling suspension.

2008

The C4 WRC proves to be an all-conquering World Rally Champion. Citroën takes the Manufacturers' Title in 2008, 2009 and 2010.

2010

The innovations keep coming – quietly – with Citroën Survolt concept. A thrilling, clean, whisper quiet electric car.

2013

Never content to rest on our laurels, the innovative Citroën C3 Hybrid Air is unveiled at the Geneva Motor Show.

...OF INNOVATION

YOU & YOUR C3 PICASSO

Citroën C3 shows that generous space and a compact profile work beautifully together, just as distinctive style and practicality do. Well equipped, advanced and efficient, this is the small family hatchback that responds to your needs.

IN GREAT SHAPE

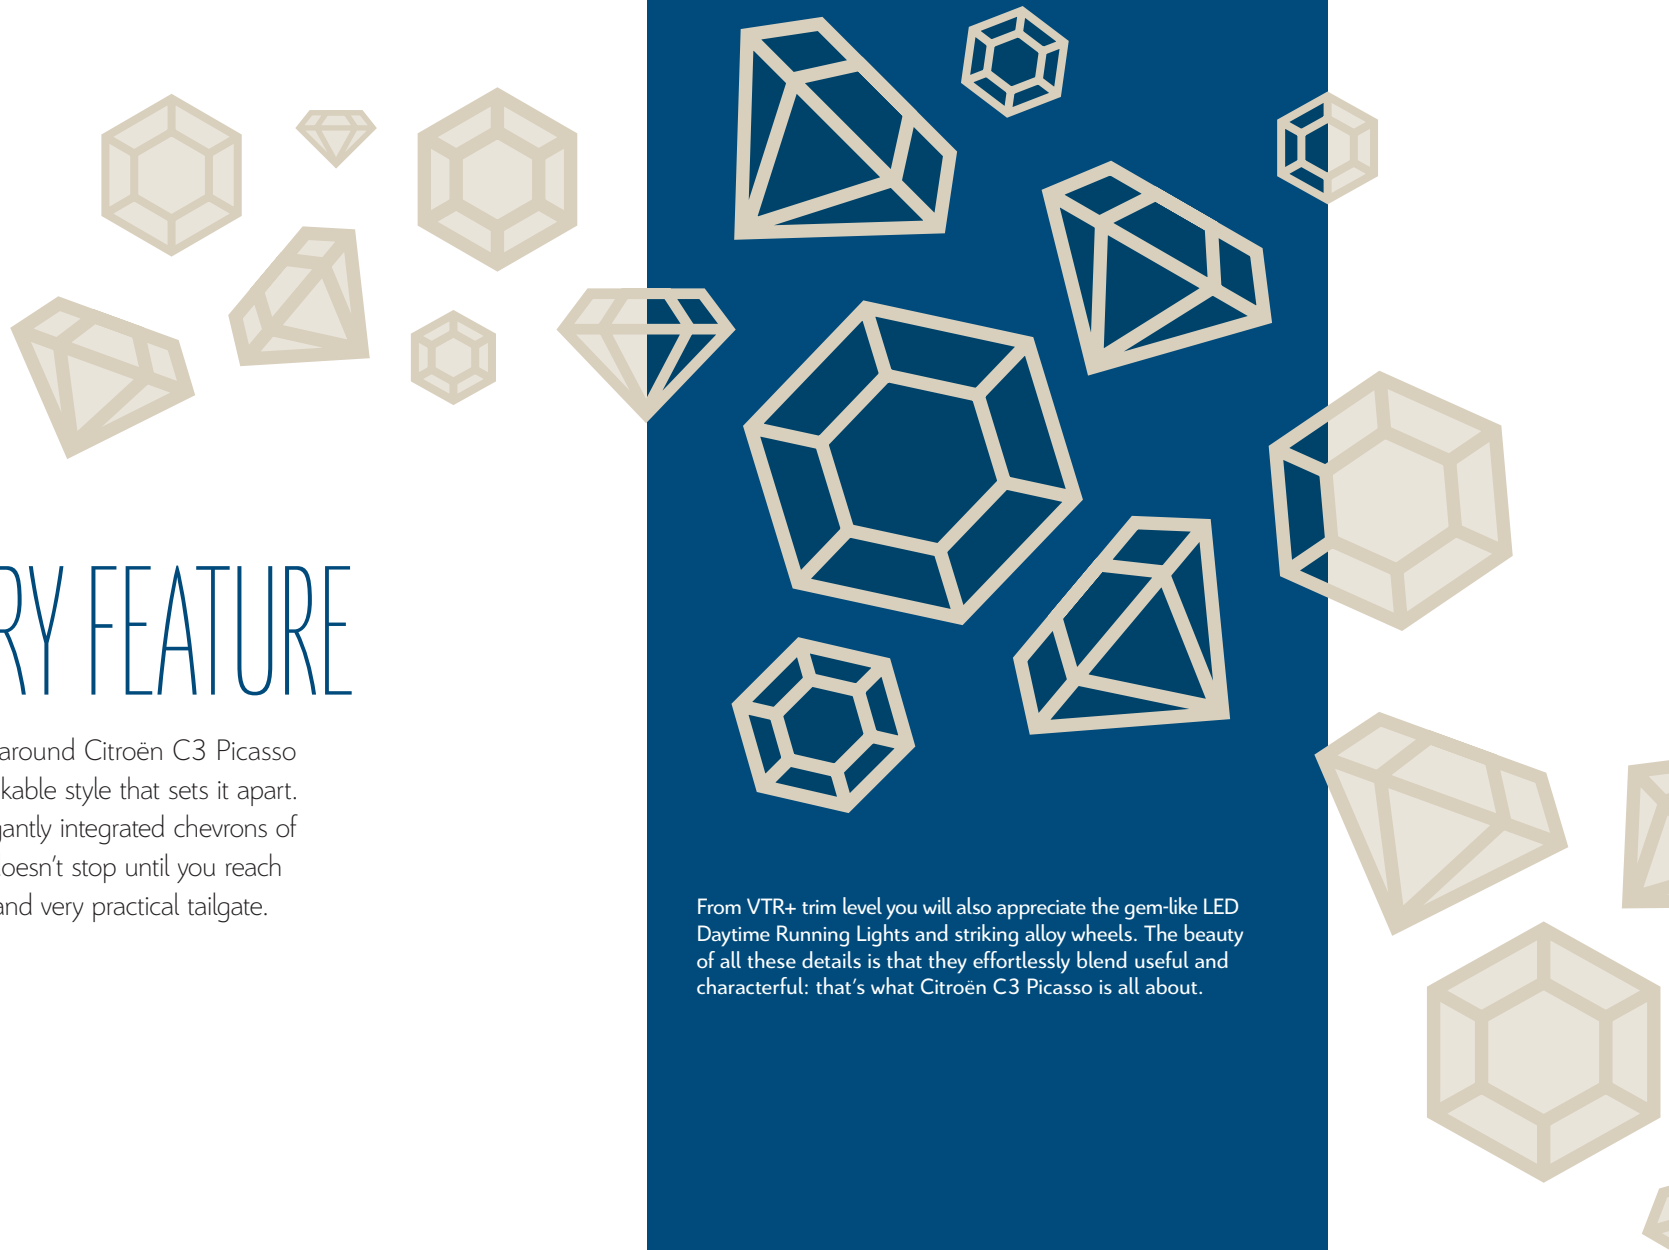

Bold, fresh and contemporary, Citroën C3 Picasso never tries to blend in. A mix of strong lines and confident curves give it real presence, striking a balance between personal style and accommodating space.

The impressively large glazed area is very much part of Citroën C3 Picasso's style signature, starting with a huge panoramic windscreen that curves seamlessly round into the quarter-lights. At a glance or in detail, here is a car shaped by fresh thinking.

CITROËN C3 PICASSO

IN EVERY FEATURE

Wherever you look around Citroën C3 Picasso you will find unmistakable style that sets it apart. It starts with the elegantly integrated chevrons of the front grille and doesn't stop until you reach the sheer, sculpted and very practical tailgate.

From VTR+ trim level you will also appreciate the gem-like LED Daytime Running Lights and striking alloy wheels. The beauty of all these details is that they effortlessly blend useful and characterful: that's what Citroën C3 Picasso is all about.

ROOM WITH A VIEW

Citroën C3 Picasso is equipped to bring you the very best views all round. With its exceptionally large glazed area you'll never miss a thing, particularly through that impressive panoramic windscreen. Choose to add the huge optional sunroof and your interior will have a really bright open feel. That's hardly surprising in a car with 4.52m² of glazing!

From VTR+ trim level you also benefit from the ingenious touch of fog lights with cornering function, for fail-safe visibility on every twist and turn.

EVERYDAY INNOVATIONS

There is a whole range of technology available on Citroën C3 Picasso, all of it designed to make your journeys easier, safer and seriously comfortable. From VTR+ level you get the safety focused convenience of cruise control with speed limiter, air conditioning and Bluetooth® handsfree plus media streaming.

On the highly equipped Exclusive version you'll also benefit from automatic air conditioning, automatic lights and windscreen wipers plus rear parking sensors. From the open road to the tightest space, there is an innovation to enhance your day.

LIFE SIMPLY FITS

Citroën C3 Picasso is naturally spacious but really flexible too. The Spacebox storage system effortlessly accommodates your belongings, offering a two-position adjustable boot area. With the back seat in its rearmost position there is a generous 385 litres. Move the seat forward and this grows to 500 litres. Fold the back seat flat and you've got an amazing 1506 litres of luggage room!

You can even remove the rear seat altogether and adjust the height of the boot floor for ultimate load carrying. Citroën C3 Picasso responds to life's unpredictable demands with innovative, practical ideas that simply work.

A PLACE FOR EVERYTHING

Beyond the versatile space of the boot there are plenty more stowage solutions. For example there's the easily accessed 3 litre draw under the front passenger seat and usefully roomy door pockets for your odds and ends.

On Exclusive models there are also handy spaces under the rear footwells that are tailor made for kids stuff and the rear bench houses a ski hatch so you can easily pack really long loads.

SAFETY AT EVERY TURN

Confidence inspiring safety starts with exceptional all round visibility. Citroën C3 Picasso's airy design gives you the best possible view of what's happening everywhere. There's a whole range of advanced driving technology on your side too.

The standard ABS with Electronic Brakeforce Distribution combines with Emergency Braking Assistance to provide really sure-footed stopping power. There's also automatic activation of the hazard warning lights to send a clear signal when you need to stop suddenly. On the move, the Electronic Stability Programme senses any loss of grip and ensures that you stay on the right course, using the traction control to minimise skidding on poor surfaces. Meanwhile inside, you and your family are protected by up to six airbags.

SET YOURSELF FREE

Citroën C3 Picasso's unique compact shape and widescreen visibility set you free to make the most of the busiest streets. On every twist and turn you'll enjoy responsive, light steering plus a precise effortless gear change and clutch too.

When it's time to grab that ideal space, these same qualities make your every manoeuvre accurate and easy. Choose an Exclusive model and you can also gain the reassuring benefits of optional rear parking sensors with reversing camera.

EFFICIENT AT HEART

Everywhere you look, Citroën C3 Picasso is designed to minimise its environmental impact. This approach starts at the very core, with the range of advanced engines.

There's a diesel and a petrol option, each created to bring you the right balance between low emissions, serious economy and refined driving character. Choose the BlueHDi 100 diesel with a manual gearbox and your car will only be producing 101g/km CO₂. You can drive in uncompromised style with no-compromise efficiency.

FURTHER FOR LESS

Every single journey in Citroën C3 Picasso is inspiring, because while you're enjoying contemporary style, comfort and safety you're also achieving amazing economy. For example the smooth punchy BlueHDi 100 will return 72.4mpg combined and up to 80.7mpg on a long run.

80.7 MPG

Choose BlueHDi and get the latest generation diesel engine technology from Citroën. BlueHDi complies with Euro 6 emission standards, to deliver exceptional fuel economy and CO₂ emissions and gives a driving experience rich in power and performance.

THREE THINKING

There's plenty of room in Citroën C3 Picasso for people, their possessions and your self expression: the spark of inspiration starts with your choice of model. Here you can explore the three generously equipped and individually stylish versions of a compact 5 seat MPV like no other. Which one will fit effortlessly into your life?

C3 PICASSO

VTR. UNIQUE BEGINS HERE.

All the qualities that make Citroën C3 Picasso distinctive are enhanced by the VT model's excellent specification. Wherever you look you'll find the contemporary design, sophisticated equipment and welcoming touches that make every journey special.

VTR+. THE WISH LIST.

Citroën C3 Picasso VTR+ takes a generous formula and enhances it even more. From air conditioning to LED Daytime Running Lights and the beautiful Look Pack this model is a wish list of intelligent, innovative equipment and fine-tuned details.

EXCLUSIVE. LUXURY UNLEASHED.

Choose Citroën C3 Picasso Exclusive to experience optimum specification. Everything that makes driving enjoyable, relaxed and safe has been added to the mix. It could take you a little while to appreciate the sheer depth of technology and luxuries here, but that's half the fun.

From roadside assistance to replacing wear and tear parts or regular servicing, with Citroën Maintenance you have total peace of mind. For a one-off fee or low monthly payment, our experienced engineers will take care of your Citroën, whatever happens.

To find out more, contact your Citroën Dealer or Citroën Authorised Repairer.

CITROËN SERVICING

Available up to 1 year from your vehicle's registration date, but before its first chargeable service, a Citroën Servicing Package enables you to pay in advance for your vehicle's servicing needs for 3 years/35,000 miles.

For further information, please contact your Citroën Dealer.

GLOSSARY

› BlueHDi DIESEL ENGINE

Latest generation diesel engine technology from Citroën. BlueHDi complies with Euro 6 emission standards, to deliver exceptional fuel economy and CO₂ emissions and gives a driving experience rich in power and performance.

› PURETECH ENGINES

PureTech engines provide increased power with lower fuel consumption and emissions by adopting a smaller and lighter three cylinder configuration constructed of pressure-cast aluminium.

In conjunction with low friction component coatings, improved air and fuel flow and optimised combustion, this allows engines to offer more power, better fuel economy and significantly lower CO₂ emissions.

› DIESEL PARTICULATE FILTER SYSTEM (DPFS)

Our unique DPFS collects exhaust particulates (soot) that would have been bound for the air around us and burns them off at 550 degrees C. This means that 'black smoke' is eliminated completely. And because the filter is constantly burning the particulates it is self-cleaning and requires no maintenance.

› ANTI-LOCK BRAKING SYSTEM (ABS)

Computer-controlled braking assistance designed to prevent the wheels from locking under extreme braking. This enables the car to continue being steered and therefore controlled during this braking incident. The Citroën C3 Picasso's ABS system is further enhanced with EBA and EBD.

› ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

A conventional ABS system cannot account for any of the four wheels wanting to lock more quickly than the others (for example, two of the wheels may be on snow and two on tarmac). EBD reads the deceleration rate of each wheel individually and applies the ABS principles accordingly.

› EMERGENCY BRAKING ASSISTANCE (EBA)

As drivers we find it difficult to instinctively brake very hard, but this is often what is needed in those rare emergency situations. The EBA system recognises our 'attempt' to brake hard and in combination with the ABS and EBD systems instantly applies the maximum stopping power possible.

› ELECTRONIC STABILITY PROGRAMME (ESP)

This is computer-controlled traction assistance and is provided primarily through the braking systems. The ESP's control unit constantly compares where the driver intends going (through the position of the steering wheel) with where the vehicle is actually going and, if necessary, makes speed corrections to each wheel individually through braking or engine torque to keep the vehicle 'in line'.

› VARIABLE POWER ASSISTED STEERING

A system that provides extra power assistance for a vehicle's steering at low speeds (such as turning a sharp corner) and less assistance during high-speed situations.

› ON-BOARD TRIP COMPUTER

The Citroën C3 Picasso's multi-function on-board trip computer provides you with information at your fingertips. At the touch of a button you can view a range of data like fuel consumption, average speed and mileage possible at your current fuel level.

› EMYWAY COLOUR SATELLITE NAVIGATION

eMyWay is completely integrated into the vehicle which avoids the risk of theft. The design has been created for ease of use and with steering wheel controls, navigating from your phone to the satellite navigation couldn't be any easier. eMyWay allows you to define routes, stops and places of interest with the added benefit of vocal instruction. eMyWay also provides live traffic updates of any congestion spots or delays. A GPS integrated aerial is built into the vehicle, to maximise the reception of satellite information; therefore permitting an accurate location of the car.

› RADIO DATA SYSTEM (RDS)

A traffic information on FM radio, allowing the station name and other information to be transmitted alongside audio information.

› FRONT SEAT BELT PRE-TENSIONERS

In the event of a crash, a pre-tensioner will tighten the seat belt almost instantaneously. This reduces the load on the occupant in a violent crash. Like airbags, pre-tensioners are triggered by sensors in the car's body, and use explosively expanding gas to drive a piston that retracts the belt. Seat belt pre-tensioners also lower the risk of 'submarining', which is when a passenger slides forward under a loosely worn seat belt.

› ISOFIX

A standardised and more simple method for installing child seats, each seat is 'clicked' into place via a three point system. On the Citroën C3 Picasso, Isofix is installed on the outer rear seats.
